Poetry Pals[®]

The Nature of Learning

Chosen as "Winner" of the top

The Poetry Pals® Learning Center is a highly interactive early literacy program for children ages 2-6, that provides children with a fun and unique learning experience, as well as developing an array of skills. The "tree" learning center features 14 puzzle-shaped poem-story board books that come to life with a gently animated read-along video that is totally interactive with the tree. The back of each board book highlights the character education theme and provides discussion questions and activities that the children will enjoy! The colorful tree bookshelf creates a unique and inviting mini-library in your classroom.

Video Item #003

The Poetry Pals® animated video brings stories to life and makes reading fun and interactive!

This beautiful video highlights the words as read and rhyming words flash different colors for early word recognition. This innovative educational tool develops and enhances reading skills for children and helps them to build confidence in their own abilities through a series of successes in a game-oriented environment.

Curriculum Guide

Complete instruction guide planning for classroom activities and exercises. Information on thematic unit, extended vocabulary and related literature also provided.

Comes with Learning Center and download free from web: www.poetrypals.com

Character Education

Children can learn traditional values and character education through reality-based stories using nature as a basis for learning. This interactive read-aloud experience teaches children the wonders of language and gives them an opportunity to love the reading experience.

"Poetry Pals books include topics with universal appeal across cultures and socio-economic strata, such as the value of friendship and sharing and the fun and importance of learning".

*Katherine Kelly, Ph.D.
